## Modify Drawer system

The innovation in the kitchen

The Naber Modify drawer equipment system, designed for drawers with a depth of 472 mm or 572 mm incl. depth supplement, offers a variety of employment and extension options. Thanks to the clever system with equipment elements, drawers and pull-outs can be divided as needed. This flexibility makes Modify a real all-rounder among the drawer equipment systems.

The modules made of real wood are characterised by high-quality materials and excellent workmanship, giving every drawer an individual division structure. By means of continuous horizontal movement of the different elements, for example, sections of any size can be formed, enabling individual storage of various kitchen accessories.

Thanks to the use of non-slip mats on the drawer base, it is not necessary to fully equip the drawer with inserts. Here, the system manages with a few premium manufactured components and provides functional accessories for your daily needs. It is flexible in width and solves the problem of connection to drawer frames without a vertical inner profile.

**Bright oak, varnished**

**Ash-tree black, varnished**

**Variable dividers made of powder coated metal in graphite colours**
