

Environmental Policy Statement

George UTZ Limited is committed to leading the reuseable plastic packaging systems industry in minimising the impact of our activity on the environment, through the implementation of our integrated management system that meets the requirements of the ISO14001:2015 standard.

Our mission is to provide innovative solutions built on efficiency, utilising sustainable resources to help us keep environmentally friendly products at the forefront.

We will achieve this by:

- Reducing emissions to mitigate climate change.
- Meeting all environmental legislation relevant to our company.
- Considering environmental value in our investments.
- Monitoring environmental KPIs.
- Continually striving to improve our integrated management system to reduce environmental impact.
- Improving our environmental performance through the identification and assessment of relevant environmental aspects and impacts, and setting objectives based on these.
- Driving and promoting, recycled and recyclable solutions for our commercial and industrial customers.
- Actively preventing pollution to the environment helping to protect ecosystems and biodiversity.

This policy is communicated to all employees and subcontractors and is available upon request for all suppliers and interested parties.

Any individual working for or on behalf of the company, and it is expected to adhere to and assist with the implementation of this policy, whilst ensuring that their own work, so far as reasonably practicable, is carried out without risk to themselves, others or the environment.

Signed *John White*
